Summary

Hi, I am Sahan Erandaka Senarathna. From Sri Lanka. By profession, I am a web developer and entrepreneur. Also, I am currently a student at CISCO Networking Academy - VTA Sri Lanka. To tell about my journey, I was interested in and passionate about IT from my school days. My journey officially began in 2020 after leaving school. I came on my way, Gathering knowledge and gaining experiences. Web development is my primary skill. Also, I am learning Networking, System Administration, and Cloud because I hope to continue my higher education in Information Security. I think it will be a good foundation for my journey.
